

Bulb planting on New Platt Lane

RUDHEATH LODGE
An update from Sibelco

Newsletter No.3

December 2019

Dear Neighbour,

I am pleased to provide a third update regarding progress at the Sibelco Rudheath Lodge Quarry Development.

On December the 4th a team of Sibelco staff carried out a litter pick and planted over 1000 daffodil bulbs along the roads side on New Platt lane ready for the spring season. Planting up of the quarry site will also begin in the new year with hedgerow gap filling and individual tree planting. New fencing will also be put in place around the quarry extraction site.

As we head into the New Year we will continue with the plant site development, we will also be commencing the highway improvements works along New Platt lane and the junction of the A50.

Phase 1 of the highway improvements will commence on the 6th of January. At this time New Platt Lane will be closed Between Brick Bank Lane and Shooting Box property. This will allow completion of works including: drainage, widening and upgrades to a road culvert. At this time traffic will be diverted via the A50 via Goostrey lane.

Phase 2 is scheduled to commence early February, the road closure will be extended to the junction of the A50. Similar works to Phase 1 with the addition of the installation of a permissive path along a section of New Platt Lane.

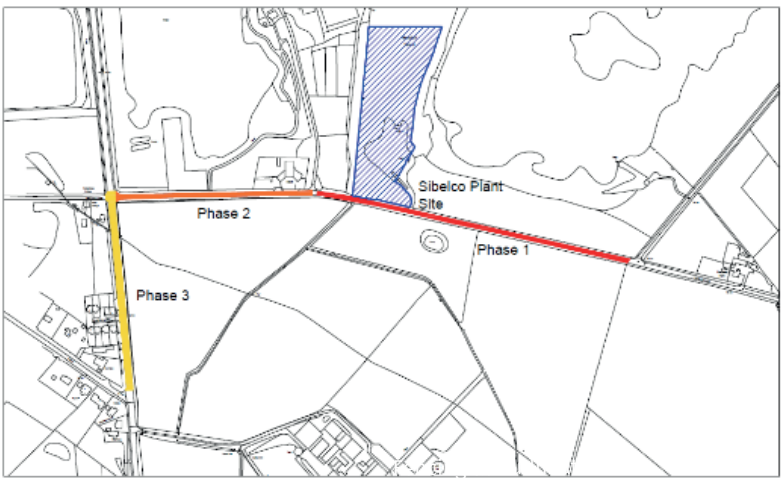

Phase 3 will is scheduled to commence on 29th February 2020. This will complete changes at the junction of the A50 to New Platt Lane and will include an overnight closure of London road.

Should you have any queries in the meantime please get in touch and I will do my best to ensure a prompt reply.

We would like to wish you all a Merry Christmas and a Happy New Year.

Best regards,

Kaz Jinks
Site Manager
